Style3D

# Realistic Presentation | SoftBody Avatar Redefines Lingerie Design

In the lingerie industry, providing customers with personalized and precise shopping experiences is crucial. Through highly realistic simulations and personalized customization, our SoftBody avatar provides brands and designers with an unprecedented innovative tool, accelerating the end-to-end GTM process.

Rigid Body

vs

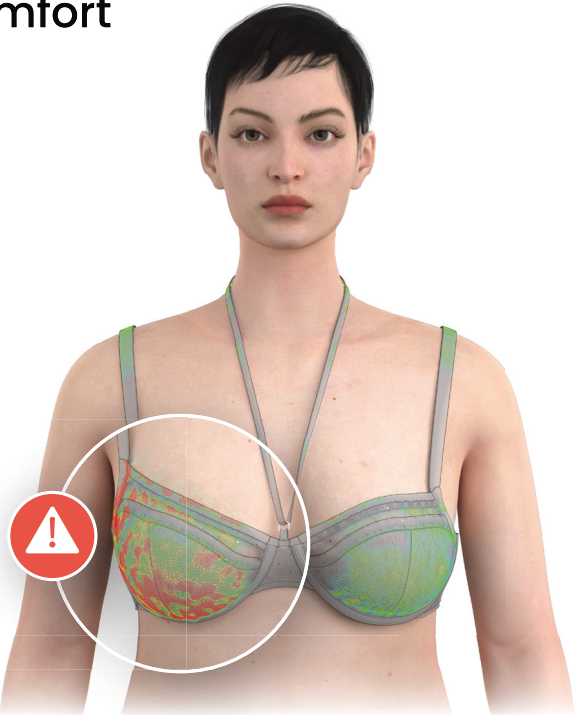

Soft Body

### Precision Fit

Soft Body avatar can accurately simulate human body curves, showcasing the fit and appearance of clothing on the body in a more realistic manner.

### Personalized Comfort

By using SoftBody avatar, potential issues such as tight shoulder straps or cup coverage can be identified at the design stage, allowing adjustments to be made before production.

# Style3D | Solutions for Lingerie

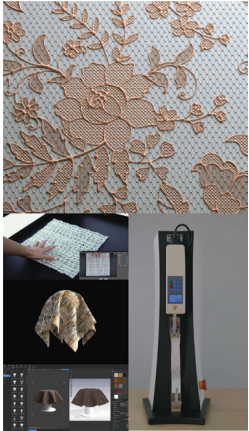

Style3D provides an end-to-end AI+3D digital solution tailored for the lingerie industry

### Start it on AI

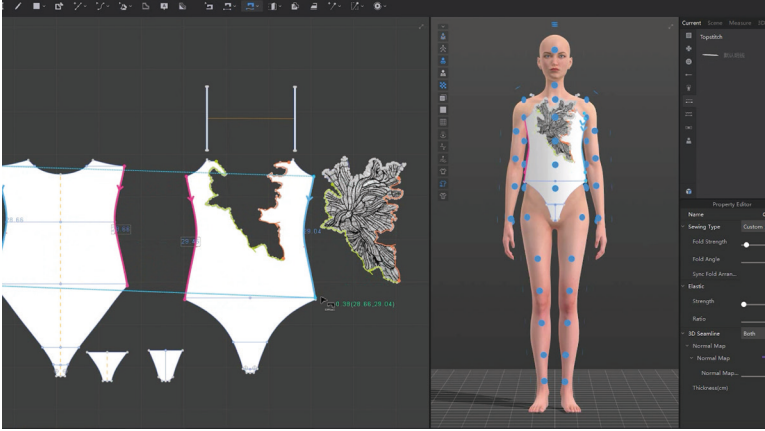

**Style3D iCreate**  
Generate AI inspirational image and fabric

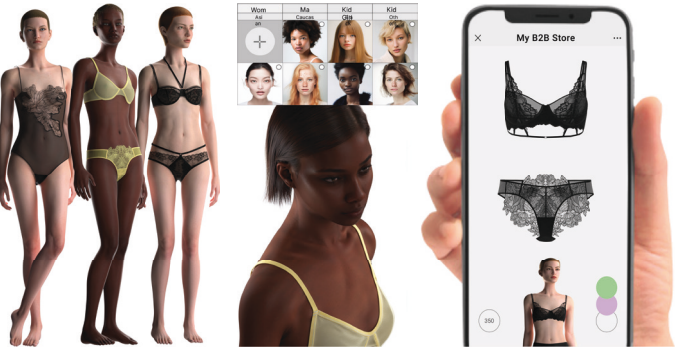

**Style3D Fabric**  
Scan,measure & digitize your fabric

### Waste-free Digital Workstations

**Style3D Studio**  
Visualize and modify your 3D Sampling

### Sell it First Empowered by [AI+3D]

Cut costs with AI-generated custom models and vVHD product images, boosting e-commerce.

Seamless connection to production, what you see is what you get.
